OUR HISTORY-

Ideas, innovations and growth

MCL began in 2015 with two people who shared a determination to put clients' needs and interests first. Our founders believed they could manage assets in a way that was better for their clients – by utilizing their passion for understanding and managing risk. This is the way the firm continues to be managed today.

Over the past 7 years, MCL has evolved from a two-person start up to a glamorous company who's trusted to manage many assets as an investment manager. The past seven years have shown our commitment to our people so that we can continue to deliver long-term value for our clients and our shareholders.
